

Recently Requested High Street Brands and Families

FM Catalogue 35

1. Updated 19 Oct 2021 - Current Files have details of 1862 High Street Perfumes with 271 'Current', 0 'While Stocks Last' and 326 'Withdrawn' FM Perfumes.
2. The number in brackets, (6), is the number of FM perfumes in the same Fragrance Wheel subgroup. The Star column shows how close a match there is with 5 Star, 5*, being closest and Grade 4, G4, being least close. The FPR column is the Fragrantica Perfume Rating out of 5.
3. Closest FM perfumes are identified by locating the High Street perfume on Michael Edwards Fragrance Wheel, and finding the FM perfumes closest, and the next closest above and below on the wheel, giving 3 numbers, the closest being the middle number. Checking the numbers with Selecting Perfumes or the Perfume Selector spreadsheet app might show a better option, particularly when there are fewer than 3 perfumes in the Fragrance Wheel group.
4. Different 'perfume authorities' often have different ideas about which fragrance should be in which group. The ultimate judge must be the customer, so ask them to try your samples and decide for themselves.
5. Although our fragrances are labelled Men or Ladies, (more men than women like Aromatic perfumes and more women than men prefer Floral perfumes), fragrances have no gender so don't worry about offering a "men's" fragrance to a woman and vice versa. Let the customer decide which is right for them.
6. A point to remember is that each fragrance wheel family is a mini-wheel in itself, and when you get to the end of the wheel or family, you can loop back to the beginning of the family and continue. This may be a better option than continuing to the next family.
7. X numbers are "while stocks last" or "Limited Edition" items and will not be available after current stock is sold.

This list is also available sorted by Name, see RecentlyRequestedNames.pdf
